YOUR GREEN QUOTIENT

INORA COMPOST CULTURE
इनोरा कंपोस्ट कल्चर

INSTRUCTIONS TO USE:
वापरण्याच्या सूचना:

3' x 3' x 1'.

1

1)Make a layer of Bio-degradable waste of size 3' x 3' x 1'.
१) ३' x ३' x १' आकाराचा सेंद्रिय कचऱ्याचा थर तयार करा.

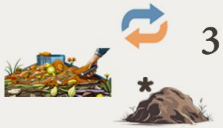
2

2)Spread 10 gm of compost culture on the layer of waste or spray slurry of 10 gm compost culture in 1 lit water on this layer. Spread the culture on each layer in the same way.

२) प्रत्येक थरावर १० ग्रॅम कंपोस्ट कल्चर बेट पसरवा किंवा १० ग्रॅम कंपोस्ट कल्चर १ लिटर पाण्यात मिसळून तयार केलेले द्रावण फवारा. प्रत्येक थरावर हेच पद्धतीने फवारा/पसरवा.

3)Turn the layer once in 8 days. Maintain adequate moisture. Spray water if necessary.

*Make a slurry of compost culture in dung, if dung is available. Dung is useful to bacteria for their growth & also useful for faster decomposition.



3

Compost process must be carried out in the shade.
३) प्रत्येक ८ दिवसांनी थर उलटा करा. योग्य आर्द्रता राखा. आवश्यक असल्यास पाणी फवारा.
टीप:
जर शेण उपलब्ध असेल तर कंपोस्ट कल्चरचे द्रावण शेणामध्ये तयार करा. शेणातील घटक जैवकि सूक्ष्मजंतूंना वाढीस मदत करतात आणि जलद् विघटनास उपयुक्त ठरतात. कंपोस्ट प्रक्रिया सावलीतच करावी.

Quantity to be used: 1kg compost culture for 500kg waste.
वापरण्याचे प्रमाण: ५०० किलो कचऱ्यासाठी १ किलो कंपोस्ट कल्चर

Carrier: Lignite / Talc
वाहक (Carrier): लग्निाइट / टॅल्क

inora

YOUR GREEN QUOTIENT

Inora compost culture
इनोर कॉम्पोस्ट कल्चर

In rural areas, large amounts of biodegradable waste like rice straw, husk, and sugarcane leaves are often burned. Instead, this waste can be efficiently converted into high-quality compost using INORA's microbial culture. These microbes break down complex organic matter through natural biochemical reactions, producing nutrient-rich, humus-based compost ideal for agriculture and gardening.

Approved input for Organic farming
GreenCert

Technology by BARC
'DAE - Societal Initiative' - AKRUTI Tech Plus

Net Weight: 1 Kg

INOPROM is a highly specialized formulation developed through co-composting of finely ground high-grade rock phosphate with high-quality bio-enriched compost, fortified with essential minerals and micronutrients in a balanced composition.

Application Dose
To be applied near Root Zone.

वापरण्याचे प्रमाण
मुळे असलेल्या भागाजवळ वापरावे.

For Pot:
Apply 50 to 100 grams per pot, depending on the pot size and plant type.
* **Small pots (6–8 inch)**: ~50 g
* **Medium pots (10–12 inch)**: ~75 g
* **Large pots (14 inch and above):** ~100 g

कुंडीसाठी:
कुंडीचा आकार आणि रोपाच्या प्रकारानुसार ५० ते १०० ग्रॅम वापरा.
- **लहान कुंडी (६–८ इंच)**: सुमारे ५० ग्रॅम
- **मध्यम कुंडी (१०–१२ इंच)**: सुमारे ७५ ग्रॅम
- **मोठी कुंडी (१४ इंच व त्यापुढे)**: सुमारे १०० ग्रॅम

For Trees:
- **1–2 Yrs** :1 Kg per year
- **2–5 Yrs** :2 Kg / Tree twice a year
- **Above 5 Yrs** :10 Kg / Tree twice a year

Specification as per FCO 1985

झाडांसाठी:
१–२ वर्षे: प्रती झाड १ किलो प्रति वर्ष
२–५ वर्षे: प्रती झाड २ किलो, वर्षातून दोन वेळा
५ वर्षांपेक्षा अधिक: प्रती झाड १० किलो, वर्षातून दोन वेळा

Role of Phosphorus : **Seed Germination** बीजांकुरण | **Root development** मूळांची वाढ | **Crop Maturity** पिकांची परिपक्वता

Best with INOVAM

Composition

- Organic Carbon %: 7.9 Min
- Nitrogen (As N) %: 0.4 Min
- Phosphate (P_2O_5) %: 10.4 Min
- Moisture %: 25 Max
- pH: 6.7
- Bulk Density (g/cm^3): <1.6
- C:N ratio: <20:1
- Conductivity (as dS/m^1): <8.2

Pack Information

- Net Weight: 1 Kg
- Batch No:
- MFG Date:
- MRP Rs (Inclusive of all Taxes)
- EXP Date: 1 Yr from MFG Date
- Sale Licence No.: LCFWD0220250399
- Storage: Cool & Dry Place
